**Plant Engineering, Production &  
Operation, Marketing & Research**

## Company profile

### 1. General Information

Addresses : BENREG Europe GmbH

D-82319 Starnberg PF/ PB 3129

T. +49 (0) 8151- 2555-0 & 2536-0; Fax -911 205

e-mail: [georg.jaeger@benreg.com](mailto:georg.jaeger@benreg.com)

BENREG Group AG International i. f.  
c/ o ProCone Gasification Systems GmbH

CH-4617 Gunzgen SO, Mittelgäustrasse 37

T. +41(0) 62 216 80 80; Fax +41(0) 62 216 80 81

e-mail: [benreg@hispeed.ch](mailto:benreg@hispeed.ch)

Founding Companies : a) ProCone Gasification Systems GmbH,

b) UTI-JAEGER GMBH Umwelttechnische Innovationen

Founding date : in 1994 (UTI), in 2005 Benreg Europe GmbH

Register of companies : UTI-JAEGER GMBH/ Benreg Europe GmbH 1994 - 2005

Company capital : EUR 50.000

# BENREG Europe GmbH

## 2. Purpose

The company is founded for the international development, design, production and distribution of:

- a) Plants for the recovery and recycling of energy from waste material, wood, biomass, wind and water as well as waste disposal and valuable material and nutrient recovery.
- b) Special gas engines for combined heat and power plants.

The company is able to purchase, administer and sell property as well as to participate with or invest in other companies with the same or similar aims inland or internationally. It can found branch offices.

Partners : Georg O. P. Jaeger, CEO of Benreg Europe GmbH

Adrian G. Fürst, CEO of ProCone Gasification Systems GmbH

Bank account(s) : Germany: HVB, CH: Post Finance, UBS AG, Zürich, AKB.

## 3. Core activities

BENREG core activities lie in the cultivation and conservation of natural and human resources through:

- a sustainable energy and nutrient and material recovery system for domestic, industrial, hazardous and organic waste material and the optimisation of biomass, wind and water power plants;
- the highest possible degree of pollutant and waste reduction through special closed gasification and cleansing systems producing an inert plant output that can be used in house building, road or embankment building.
- the minimisation of separate waste collection systems for all kinds of waste material;
- the intensification of socio-ecological agriculture through the promotion of an energy and nutrient cycle based upon biomass.

# BENREG Europe GmbH

## 4. Company development / geographic reach

The BENREG Group is looking to establish a leading position in the Asian, American and European markets and particularly to distribute respectively to participate in the operation of BENREG UNIVERSAL PLANTS in cooperation with local companies, too.

## 5. Company positioning

The BENREG Group continues to forward research, development and construction projects (investment by the partners to date: approx. 6.5 Million EUR).

The BENREG develops, plans and realises turnkey BENREG -Universal Recycling and Energy and Material Recovery plants (UNIVERSAL PLANTS). It can function as coordinating planner, realisation company or as manufacturer of individual components.

- Fuel logistics	BenregLoad
- Gasification plants	BenregGas
- Gas cleansing	BenregClean
- Water and waste water processing	BenregWater
- Heat installations	BenregHeat
- Power installations	BenregPower
- EMSR-controlling technology	BenregControl
- Consulting/Engineering	BenregEngineer
	BenregConsulting

## 6. Patents and trademarks

Patent registrations	a) PROMETHEUS and BASURA Gasifiers b) BENREG UNIVERSAL PLANTS
----------------------	--

Patent Office	Bundesamt für geistiges Eigentum in Bern / Patent Office, Bern
Patent registration	for a) CH-00 039/00 from 10.01.2000
International	for a) PCT/CH 01/00001 from 03.01.2001
Inventor and owner	for a) Adrian G. Fuerst, Gunzgen for b) Joint patent application by partners Adrian Fuerst, Georg O. P. Jaeger PCT-application from Nov. 04

Patented Inventions	a) Gasification Plants for solid fuel materials b) BENREG UNIVERSAL PLANTS.
---------------------	--
